For Immediate Delivery

Scan/Send/Receive from/to ANYONE – ANYTIME - ANYWHERE

ITLNOW is excited to offer its clients an Internet-based archive service for consolidating your electronic records - e-mails, images, electronic statements, and more - into a unified, browser-accessible archive for fast and easy search or scanning, retrieval, and management.

The user is able to scan or save an image from any browser. You can use any TWAIN or ISIS compliant scanner like the one pictured to upload documents right from your browser.

ITLNOW can also stage and perform the preparation, scanning and indexing of

About ITLNOW

ITLNOW has been providing business system solutions to many companies in many industries such as accounting, banking, government, legal and healthcare.

Our time tested approach focuses on solving business problems FIRST. Today, we provide a full spectrum of document information technologies - capture solutions from form design to document storage and retrieval. In addition, we offer "off-the-shelf" modules for the accounts payable, healthcare, transportation, accounts receivable markets....and more.
